Tested Seeds

Paul H. Baermann Seed Co.  
504 VLIET STREET MILWAUKEE, WIS.

We present our seventh annual price list to the market gardeners and Florists with our best wishes for a happy and prosperous New Year.

Our many years experience in the seed business enables us to secure the best varieties from seed growers with the highest reputations for quality in this country and abroad.

We do not attempt to compete in price with inferior stocks offered by some firms under the same name, for any gardener can understand that the cost of raising a field of carefully rogued and selected seeds is greater than a field of cheaper seeds not requiring as much attention. Naturally the seed growers prices to us are a bit higher for the better stocks. You will find our prices very reasonable, however, for the quality of seed offered.

The first cost of seed is but a small item compared to the cost of land, labor, time and all other attentions a crop needs before maturity. If the crop is not as good as it should be and the seed is at fault, you can readily see that the small difference in the first cost of the seed is only a very small part of the loss sustained.

The most important factor to a gardener or florist is that the seed he has planted should GROW and it certainly would be a big aid to him to know just what PERCENTAGE grows. We test EVERY ITEM in our stock for germination before our orders are filled and we have the actual tests to show for reference at any time.

Many new varieties and improvements and selections on old strains are listed this year which every gardener ought to try and which may prove real money makers because of their earliness or other good qualities. These new varieties with only a few exceptions were tried out in field tests a year before offering them to the trade as better stocks. **NEW STOCKS AND THE BETTER VARIETIES ARE PRINTED IN HEAVIER TYPE IN THIS LIST.**

# TESTED SEEDS

---

All orders taken previous to the issuing of this list, if some of the prices are higher, will be lowered to meet prices in this catalogue. This list cancels all previous prices.

Write all orders on blank enclosed and use envelope, writing your return address thereon. We will send all orders of reasonable weight for Garden and Flower seed by Parcel Post, the postage charges paid by us (except Beans, Sweet Corn and Peas.)

Seamless Cotton Bags charged extra at cost where required for packing or shipping.

As customary with all American seed houses we can not GUARANTEE results or crops, due to poor weather conditions, improper care at time of planting or cultivation, damage done by insect pests, and all other causes beyond our control.

**NON WARRANTY**—"We give no warranty express or implied as to description, quality, productiveness, or any other matter of any Seeds, Bulbs or Plants we send out and will not in any way be responsible for the crop."

Although if there is any cause for complaint, we will determine the cause and replace the seed free of charge if it is at fault.

---

## VEGETABLE SEEDS

ALL MADE UP LITHOGRAPHED PACKETS 5c. NO PACKETS LESS THAN 10c OF ANY VARIETY WEIGHED UP FROM BULK.

	oz.	1/4 lb.	1 lb.
ARTICHOKE Large Green Globe .....	\$0.50	\$1.60	\$6.00
<hr/>			
ASPARAGUS			
Giant Snowtop .....	.20	.65	2.35

MUSHROOM SPAWN (Ask for Prices)

**SOUTHPORT YELLOW GLOBE. Conn. Grown Seed**

Good Onion seed is very scarce this year and high priced as most growers know by this time. This was due to poor weather conditions in seed growing sections when seed was ripening. We were very successful in securing a few lots of Onion seed which are listed below at prices which are very low for good seed this year. Supply limited.

ONION	1 oz.	$\frac{1}{4}$ lb.	1 lb.
Yellow Globe Danvers Select—California grown....	.40	1.25	4.50
Ailsa Craig—Very large yellow for transplanting or can be seeded on field. We recommend this variety this year .....	.45	1.50	5.50

## **SELECT FLOWER SEED**

We handle the best varieties of Flower seed only, which are true to name and of highest germination. Our seed is grown for us by experts in this line both in this country and abroad.

---

All Lithographed made up packets 5c. NO FLOWER SEED  
WEIGHED UP FROM BULK LESS THAN 10c.

**IMPORTANT!**

We are discontinuing Trade Packets on practically all varieties this year and listing smaller weights instead. We believe this will be better and less confusing to the customer. Please order by weight wherever possible, from 1/256 part of an ounce (for the very high priced seed) and up, even if smaller weights are not listed in this book.

**SWEET PEAS**

**New Early Flowering Spencer—**

We have a very superior stock of this most important item for the florist. We buy only the carefully selected strains from the best growers of sweet Peas who has repeatedly won Gold Medals or other high honors in the National Flower Shows. Many varieties listed under the “old reliable” names are in reality new improved stocks carefully selected.

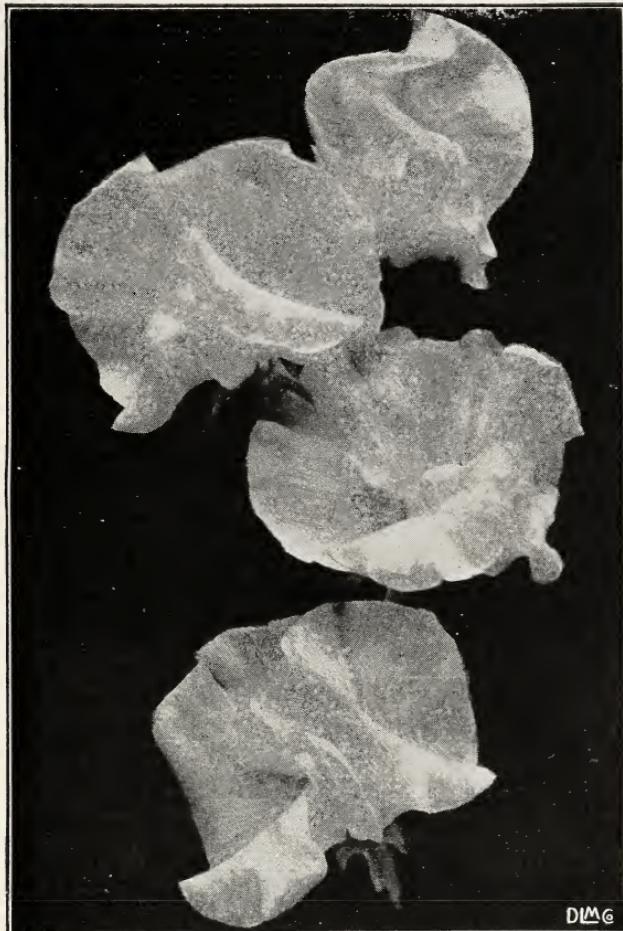

### TRY THESE NEW NOVELTIES OF 1926:

It is the Florist who tries these new novelties in new colors who makes the “hit” and also the most money on the wholesale or retail Flower markets.

		$\frac{1}{4}$ oz.	1 oz.	
<b>BAERMANN'S EARLY ORANGE (New)</b> —Orange				
is the most popular color on the Milwaukee market at this time and we predict that this variety will surpass all other orange varieties now grown. Is of a deepest rich glowing orange. Truly a beautiful flower. Throws fours regularly on long stiff stems	\$1.00	\$3.50		

<b>MILWAUKEE LAVENDER (New)</b> —Will take the place of all other lavender varieties for it is a pure lavender of immense size and beautifully frilled. Bears fours on good stems.....	1.00	3.00		
--	------	------	--	--

<b>PRIDE OF CALIFORNIA (New)</b> —An early cream pink for forcing which is something brand new in this line. Of surpassing beauty; a fine pink suffused with salmon on a deep cream ground, of robust habit. Try this one.....	1.00	3.00		
--	------	------	--	--

<b>GIANT DOUBLE DAHLIA FLOWERED ZINNIAS</b>				
This new type of Zinnia should not be confused with the inferior and low priced imported seed offered by some seed houses under same name. Our seed is procured from the California originator of this new type.				
A new improvement on all types of Zinnias, which can best be described by saying they resemble Dahlias. Every florist and gardener should try this new type which we offer in the following colors:				
		$\frac{1}{16}$ oz.	$\frac{1}{4}$ oz.	1 oz.

## No. 26 DRILL SEEDER

The No. 26 is a distinct advance in the design and construction of Seed Drills. It is built to give unusual service in any kind of soil and is particularly good in muck land and sandy soils for several reasons: The broad tread wheels will not sink in either muck or sand and the opening plow cuts a clean drill in either of these soils—as well as all others, and the wings on the opening plow prevent the soil from falling back into the drill and the wind from blowing seeds away. Automatic shut-off is operated by the weight of coverers when handles are lifted. Flow of seed is automatically started again when handles are lowered. The marker cuts a sharp and distinct mark in any type of soil; handles are adjustable; the drill will sow practically any kind of vegetable seeds without cracking any of them—at the right depth and thickness. The hopper holds 4 quarts, is detachable by unscrewing two thumb nuts which makes it easy to empty and fill and permits a clear view of the seed opening.

## No. 3 HILL AND DRILL SEEDER

The No. 3 is the favorite among the market gardeners of the country. It sows all vegetable seeds in long narrow drills, at the right depth and thickness, or drops in hills 4, 6, 8, 12 or 24 inches apart. Capacity of the hopper is 3 quarts. Opening plow adjustable for depth; handles adjustable. For sowing onion seeds for sets, special opening plow and covers can be furnished.

## No. 5 HILL AND DRILL SEEDER

Same as the No. 3 but has a capacity of 5 quarts and wheel is  $1\frac{1}{2}$  inches higher.

## No. 11 DOUBLE AND SINGLE WHEEL HOE

Here is the most complete cultivating tool available for either the home or market garden. The equipment includes, a pair of 6 inch hoes, a pair of  $4\frac{1}{2}$  inch hoes, four steel cultivating teeth, a pair of garden plows, and two pairs of rakes, as well as a pair of leaf lifters. All of these cultivating attachments are especially hardened, oil tempered, and will keep a sharp edge for a long time. Handles are adjustable to suit height of operator.

## No. 12 DOUBLE AND SINGLE WHEEL HOE

The No. 12 is the same as the No. 11 less rakes and  $4\frac{1}{2}$  inch hoes. It is a great favorite in the home or market garden because of the variety of work that it does. All Double Wheel Hoe straddle the row until the plants are 20 inches high, cultivating both sides at one time. Also very useful as a Single Wheel Hoe between rows.

## No. 13 DOUBLE AND SINGLE WHEEL HOE

Equipped only with the 6 inch hoes, the most useful of all attachments. Wonderful weed killers and provide a mulch that prevents evaporation of moisture from the soil. Straddles the row until the plants are 20 inches high, cultivating both sides at one time.

## No. 18 SINGLE WHEEL HOE

The No. 18 is a light easy running Wheel Hoe for the market gardener. It will do in a day's time work that would require several days with the old style hand hoe. Equipped with 6 inch hoes only—the most useful, wonderful weed killers.

## No. 17 SINGLE WHEEL HOE

Same as the No. 18 plus three steel cultivator teeth and a garden plow.

## No. 16 SINGLE WHEEL HOE

Same as the No. 17 plus a pair of rakes, and a leaf lifter.

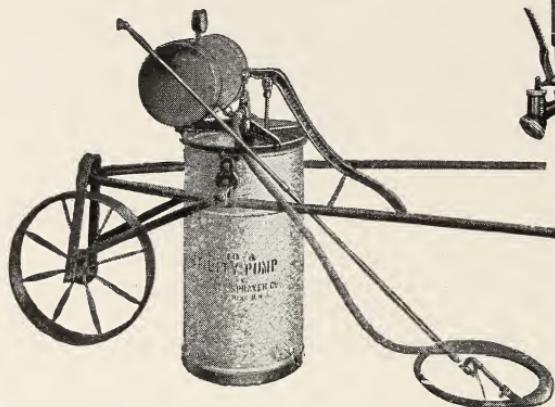

## SPRAYERS

**UTILITY No. 10**—With ball valve, no trouble with leather or rubber valve parts. Capacity  $3\frac{1}{2}$  gallons. Galvanized tank, each.....\$6.35

**Lowell Glass Mason Jar Sprayer**  
each ..... .75

**TIN SPRAYERS**—  
 $\frac{3}{4}$  Pint, 30c each.  
1 Quart, 45c each.

Substantial and made for hard service.

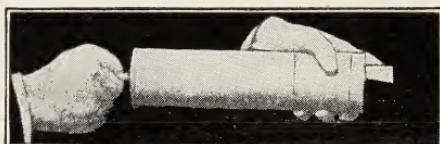

**Utility No. 40A Portable**—Like illustrated with pressure tank. Capacity 18 gallons \$45.50 each;  
No. 40 without pressure tank, \$29.25 each. Can also be had with two wheels at extra cost.

**Utility No. 170 or D. & B. No. 100**—Dry Powder Blower with extension pipes for one or two rows \$10.00 each.  
**Model B Feeny Duster**—Best small hand dry duster on the market, nothing to get out of order, \$1.25 each.

### MODEL B FEENY DUSTER

### MODEL D 2 QT. FEENY DUSTER

**Model D 2 Qt. Feeny Duster**—The handiest dry duster on the market. Like model "B" but of much larger capacity and made longer. Better for the larger truck gardener. Dusts evenly any dry insecticide. Best feature, spout can be turned around to dust under the leaves, each \$4.00.

**Model D 4 qt.** like above but larger capacity, each \$4.50.

# Armour's BIG CROP Fertilizers

Armour's Big Crop Bone Meal 3-27—125 lbs. in a Bag  
Guaranteed analysis, 3% ammonia, equivalent to 2.47% nitrogen,  
and 27% total phosphoric acid. Very good for fall application  
on lawns, meadows and permanent pastures, also valuable in  
greenhouses for benching, rose beds, pot and bench plants. It  
is finely ground and of first quality. Decomposition starts  
quickly and continues throughout the growing season, improv-  
ing soil fertility as well as feeding the plants.

Apply 25 lbs. per 1,000 square feet on lawns, 50 lbs. per cubic  
yard for benching pot plants and roses, 500 to 1000 lbs. per acre.

## Armour's Big Crop 4-8-6 Fertilizer

125 lbs. in a Bag

For all soils other than muck or peat  
—a concentrated manure especially  
prepared for Truck Farms, Home  
Gardens, Potting Earth and Top  
Dressing—for asparagus, beans, beets,  
peas, carrots, cabbage, cucumbers,  
onions, tomatoes, potatoes, strawber-  
ries, etc. Apply 300 to 800 lbs. per  
acre. Use 50 lbs. per cubic yard for  
potting earth and scatter 20 lbs. per  
1,000 square feet for top dressing.

## Armour's Big Crop 2-16-8 Fertilizer

125 lbs. in a Bag

A good all around fertilizer for general  
truck crops especially good for  
grain, etc., where more phosphate is  
required and also on muck soils where  
a little nitrogen is required. Apply  
500 to 1,000 pounds per acre.

**Make  
Every Acre  
Do Its  
Best**

Armour's Big Crop 0-14-14 Fertilizer—125 lbs. in a Bag  
On all muck and peat soils which contain enough nitrogen but  
lack in phosphate and potash. Very good for all root crops—  
Radish, Beet, Carrot, Potatoes, etc., also Celery and Asparagus.  
Apply same as above.

## Armour's Nitrate of Soda

Most available and the quickest commercial nitrogen used to  
force maturity of vegetables and flowers. It should be applied  
only when the plants are above ground.

## Armour's Muriate of Potash

Imported or domestic Muriate, recommended for all root crops.  
May be used with Bone Meal and Nitrate or natural fertilizer—  
for fruits, celery, asparagus, potatoes, etc. Both above 200 lbs.  
to bag.

We have on hand and can supply any quantity, from a Pound  
to a Carload, and
